Australia's first B Corp dog food

~~Dogs
over
profit~~

Healthier kibble
you can trust—
delivered direct.

Scratch is the Australian
owned, game-changing new
breed of dog food putting dogs
and the planet first.

The dog food industry isn't a very
nice place, ya see. Ground up dodgy
meat, cheap ingredients, heavy bags,
little transparency and 80% of it
being headed up by two massive
chocolate companies. Not on.

Mike and Doug decided that
they were gonna fix it once
and for all. From the supply chain
right down to how it's delivered.

Their mission? To offer you
a new breed of Australian made
dog food. One that's good for
your dog, better for the planet,
and easier for you. Dig in at
